

Light-Duty Products 2018 Training School

ONLINE • ON-SITE • IN CLASS

Flexco Light-Duty Products School provides technical training, application insights, and common-sense problem solving tips for our comprehensive line of light-duty conveyor products in a 2-1/2 day agenda. Join us and:

- Tour our manufacturing area
- Explore the Flexco line of light-duty products
- Discuss how to select the best splicing solution for an application
- Review proper installation procedures and best practices
- Learn basic troubleshooting and situational tips from experienced installers
- Participate in hands-on installation of Flexco Light-Duty mechanical belt fastener and endless splicing solutions, as well as the light-duty belt cleaner and other accessory items

Our experienced trainers will lead discussions that address the specific problems and challenges faced when splicing and maintaining light-duty belts, answer questions, and demonstrate product installation with a variety of tools. See the schedule below and enroll now!

***Flexco Light-Duty Products Schools
are held at our Training Center located in Grand Rapids, MI.***

For more registration information visit www.flexco.com
